Activity : Build your own three (3) sentences and replace the different subjects and objects by the appropriate pronouns.

Hospital departments

- 1) Name some hospital departments?
- 2) Why is it important to know what different departments do ?

Bogodogo Hospital 's dedicated staff is here to serve you. Our departments include:

- **Emergency:** treats patients in life-threatening conditions.
- **Ressuscitation:** department dealing with reviving patients and returning them to consciousness by artificial respiration
- **Pediatrics:** provides healthcare from birth to teenage
- **Obstetrics:** cares for women through all stages of pregnancy
- **Radiology:** creates x-rays and CT scans for all departments
- **Pathology:** tests samples for all departments

- **Surgery**: treats diseases by operative procedure involving incision; repair damage or arrest disease; organ transplants.
- **Dermatology**: cares for skin and its diseases
- **Nephrology**: concerned with kidney and its disorders
- **Neurology**: deals with the nervous system and its disorders
- **Infectious diseases**: treats diseases transmitted only by specific kinds of contact
- **Psychiatry**: dealing with the diagnosis and treatment of mental disorders

- **Internal medicine:** this department deals with the diagnosis and treatment of systemic and auto immune diseases.
- **Pulmonology:** treats with respiratory diseases.
- **Nuclear medicine:** uses radioactive materials either to image a patient's body or to destroy diseased cells.
- **Urology:** deals with the diagnosis and treatment of disorders of the urinary tract or urogenital system.
- **Traumatology:** deals with the surgical repair of injuries and wounds arising from accidents.

Construction Notice

Bogodogo Hospital wants to give its patients the best care possible. In order to do this, we need to update our facilities (installation) from time to time. As a result, we are starting some construction projects today. Some departments are temporarily moving during construction. The cardiology department is now in the **basement** (sous sol) across from (en face de) the radiology and pathology departments. Obstetrics is on the second **floor** next to pediatrics. Access to other departments is limited. The entrance to orthopedics is now through the dermatology department. The surgery wing of the hospital is only accessible through the lobby(hall) elevators. The emergency room and the pharmacy are unaffected.

Activity 1 : Read and mark the following statements as true (T) or false (F).

1 -The hospital is beginning construction to repair damages.

2 -The radiology department is on the same floor as the cardiology department.

3 -Patients have to go through the pathology department to get to orthopedics.

Answer:

1) False

2) False

3) False
